Valuemed Team Spotlight on Caroline Kroetsch

Dental Sales Lead AB

What drew you to this field, and how did you get started?

Dentistry has always been a part of my life and something I've been passionate about for as long as I can remember. Growing up, I was fascinated by the industry and the impact it has on people's health and confidence. While attending Grant MacEwan University, I pursued business studies with a focus on marketing and sales. I spent several years building my customer service and relationship-management skills at that time. Even then, my interest in dentistry never faded, which led me back to school to complete the dental assisting program in Calgary.

When the opportunity to combine my background in business with my passion for dentistry through dental sales came along with Valuemed it felt like the perfect fit. Today, I bring nearly 20 years of experience in the dental industry, and what I enjoy most is helping practices find solutions that make their day-to-day operations more successful. Building strong relationships with customers and being part of such a dynamic industry is what keeps me excited about what I do every day.

How do you stay current with new products & trends in the industry?

I stay current through continuous training, product education, and ongoing learning. I also rely heavily on feedback from my customers, as they provide valuable insights into emerging trends, new technologies, and changing needs within the dental industry.

What's one thing you can't work without?

My phone! It keeps me connected to my customers, colleagues, and the resources I need throughout the day. I also enjoy sharing promotions, samples, and new product information with my customers to help support their success.

What's your favorite lunch spot or snack?

I love Tiramisu Bistro in Edmonton!! Such an amazing atmosphere and food.

What's a hidden talent you have?

One of my hidden talents is building genuine relationships with people. I view my customers as part of my work family. I enjoy connecting with customers, understanding their needs, and creating long-term partnerships.
