Photon EXE Series Dental Diode Lasers

Designed for precision, versatility, and ease of use, the Photon EXE Series combines advanced diode laser technology with an intuitive user interface to deliver exceptional soft-tissue performance for today's dental practice.

Standard Features

- High-resolution colour display
- 30+ preset clinical procedures
- Interactive user interface
- Updated LBR timer
- Enhanced battery performance
- Wireless foot pedal
- Training & customer support included

Common Applications

- Gingivoplasty & gingival contouring
- Crown impressions
- Fibroma removal
- Implant recovery
- Incision & drainage
- Operculectomy
- Exposure of unerupted teeth

Photon EXE 3-Watt LLLT

ZOL-1103201000

- 3-Watt diode laser
- Includes LLLT handpiece with clinical guide
- Permanent handpiece with 5 disposable tips

Photon EXE PLUS 10-Watt

ZOL-1110101000

- Powerful 10-Watt diode laser
- Multi-use handpiece
- Includes 5 disposable tips & bleaching tip

SciCan STATMATIC Automatic Handpiece Maintenance System

SciCan | Your Infection Control Specialist

The STATMATIC Automatic Handpiece Maintenance System simplifies daily handpiece care by automatically cleaning, lubricating, and purging instruments before sterilization. In less than a minute, it services up to three handpieces at once, helping reduce maintenance time while improving performance and extending handpiece life. Its compact, automated design ensures consistent results and efficient workflow for busy dental practices.

Key Features

- Cleans, lubricates & purges up to 3 handpieces in under 1 minute
- Extends handpiece life and improves performance
- Fully automated operation for consistent maintenance

Flight 1:1 E-Type Contra Angle Push Button Latch Handpiece

- Lightweight, ergonomic one-piece design
- 1:1 E-Type contra angle with push-button latch
- Ball bearing system, up to 40,000 RPM
- Stainless steel body with external water channel
- Non-optic, compatible with 2.35 mm CA burs

209-F-DE11

Flight 4:1 E-Type Contra Angle Latch Push Button One Piece

- Lightweight, ergonomic one-piece design
- 4:1 E-Type prophy contra angle
- Push-button latch with ball bearings
- Maximum speed 10,000 RPM
- External water channel
- Non-optic, compatible with 2.35 mm CA burs

209-F-DE41

Flight Handpiece E-Type 4:1 Contra Angle Screw-on Propy

- Lightweight, ergonomic one-piece design
- 4:1 E-Type screw-in prophy handpiece
- Push-button chuck with ball bearings
- Maximum speed 10,000 RPM
- External water channel
- Non-optic stainless steel construction

209-F-DE41PS

Flight Handpiece Straight Nose Cone

- Straight nose cone with external water spray
- Compatible with Flight straight handpieces
- Twist-lock chuck for 2.35 mm burs (40 mm)
- Maximum speed 40,000 RPM
- Durable, non-optic professional construction

209-F-DE01

20K Mini Air Motor - 1:1 Drive

- Compact, lightweight 1:1 direct-drive air motor
- Up to 20,000 RPM for smooth, precise performance
- Ergonomic design reduces operator fatigue
- Compatible with Flight contra angles & straight nose cones
- Durable, reliable, non-water design

209-F-DE74

Flight Mini Head Midwest Highspeed Handpiece, 4 Hole, Single Water Spray

- Compact mini head for improved access and visibility
- 350,000–400,000 RPM with 21W of cutting power
- Lightweight design w/low vibration for added comfort
- Durable ceramic bearings with single-port water spray
- Midwest 4-hole connection, non-LED

209-F-140

MK Dent ECO Line Highspeed Handpiece

Manufactured in Germany, the MK Dent ECO Line Highspeed Handpieces deliver exceptional precision, durability, and value for everyday clinical use. Featuring refined ceramic bearings, a high-strength carbide chuck, and a lightweight ergonomic design, they provide smooth, quiet performance with the reliability professionals expect from MK Dent.

- German-engineered quality
- Powerful 15W performance at 420,000 RPM
- Refined ceramic bearings for smooth, quiet operation
- Durable carbide chuck for extended service life
- Push-button bur release with compact head design
- Single spray cooling system

With Light

- Bright 40,000 lux glass rod fiber optic illumination
- Ideal for enhanced visibility during procedures

209-HB23KL

No Light

- Economical non-fiber optic model
- Premium performance without integrated illumination

209-HB23K

Scican Hydrim 112L G4+ Automated Washer

SciCan | Your Infection Control Specialist

The SciCan HYDRIM 112W G4+ is a professional, under-counter automated instrument washer that takes care of pre-rinsing, washing, and drying. Designed to streamline sterilization workflows, it cleans up to 250 instruments in as little as 44 minutes, eliminating manual hand-scrubbing and reducing the risk of sharps injuries.

- G4+ technology with touchscreen display & built-in WiFi
- Active HEPA drying delivers instruments ready for immediate use
- Large 112L chamber holds up to 10 cassettes & 4 baskets
- Integrated HIP detergent system for mess-free, optimized cleaning
- PIN-protected user tracking for enhanced compliance
- Remote monitoring, diagnostics & automatic updates

AUTOCLAVES & STERILIZATION

Flight Clave 16+ Class S Autoclave

The Clave16+ is a compact and efficient sterilizer. It features state-of-the-art steam injection pressure pulsing technology that reduces maintenance, improves sterilization effectiveness, and increases the speed of the sterilization process.

- Advanced pressure pulsing technology
- Pressure displacement system removes air for superior sterilization
- Improves sterilization effectiveness while reducing maintenance
- Ideal for dental, veterinary, podiatry, chiropody, tattoo & medical practices
- 16 L chamber (9" x 14.2") with 3 trays
- Overall dimensions: 17.5" W x 16.1" H x 23.8" D

209-A9004-16

Flight CLAVE B Pre-Vac Autoclave

- Class B pre/post vacuum sterilizer
- Large 23L, 4-tray chamber
- Fast sterilization & drying
- Preset cycles for all load types
- LCD diagnostics & safety monitoring
- Low-maintenance design

209-A9003-23B

Flight Autoclave Clave45+ Large Capacity Steam

- 45L Class S steam
- Fast 70-minute wrapped cycle
- 5 preset sterilization cycles
- Built-in printer & data logger
- Dry-Assist™ post-vacuum drying
- Integrated water reservoirs
- Stainless steel trolley included

209-A9007-45

SciCan STATCLAVE G4 208-240V Autoclave B

Statim Autoclave Sterilizer (2000 and 5000)

- Sterilizes larger loads in as little as 9 minutes
- High-capacity cassette system
- G4 technology with cycle tracking
- Fresh water used every cycle

Coltene BioSonic US200R Ultrasonic Scaler

A magnetostrictive ultrasonic scaler designed for supra- and subgingival scaling, routine prophylaxis, and periodontal therapy. It automatically detects and accepts both 25 kHz and 30 kHz BioSonic and compatible competitor inserts, eliminating the need for manual switching. Power and Turbo mode are controlled via the foot pedal, while water flow is independently adjustable from a pressurized bottle, internal pump, or direct water supply. The removable handpiece sheath allows for easy cleaning and sterilization.

Key Features:

- Automatic 25 kHz & 30 kHz insert detection
- Compatible with BioSonic & leading competitor inserts
- Adjustable water flow with Turbo foot pedal
- Removable, sterilizable handpiece
- Includes scaler unit, foot pedal and accessory kit

Flight Tabletop Ultrasonic Deluxe Magnetostrictive Scaler Model 2

The Flight Tabletop Ultrasonic Scaler FMS-2530R2 is a high-performance dental scaling unit designed for precision, efficiency, and patient comfort. Built for modern dental clinics, this powerful tabletop ultrasonic scaler delivers reliable calculus removal, plaque disruption, and periodontal therapy support in a compact, durable design. This portable unit only requires a water source and power source to operate. It is easy to use and small in design to fit in the smallest spaces.

209-FMS-2530R2

- Compact and Light weight
- Autoclavable hand piece sheath
- Automatically switches operating frequency between 25K or 30K
- Tips can be rotated 360 degrees to reduce cord drag
- Designed for use in prophylaxis treatments
- Compatible with any cavitrion insert 25/30K
- Turbo Option built in to all units
- Foot Control allows for easy control of power of the vibrations
